SOCIAL JUSTICE

Affordable Housing

Have a bit of fun with your children and grandchildren. With them search on the internet for "houses from recycled plastic" and "3D print out houses"

Admire the inventiveness of Nev Hyman building cyclone proof dwellings from plastic bricks. N.Z., America and Mexico use and export these dwellings.

3D houses can be made from mud or concrete.

Could any of these house the 116,427 homeless people in Australia?
